Technical Data Sheet

Manufacturer Details:
Soliege SARL
3 Place Marechal Leclerc
44340 Bouguenais
FRANCE

Distributor:
ASD Oceania
293 Botany street
Kingsford NSW, 2032
AUSTRALIA

Natural Color	Beige
Working Temperature	between 5°C to 35°C
Touch Dry	After 4-5hours at 18°C
Dry Through	24hours
Temperature Resistance	-30°C to 180°C
Tensile Strength	0.23 Mpa - Elongation
Adhesion	0.5 N / mm²
Density	0.6 g/cm³
Durability	Validated tests for 10 years
Grain Size	1.2 to 1.5 mm
Fire Behavior	practically non-combustible
Shock Resistance	no breakage
Acoustic Efficiency	up to 19 dB
Thermal Conductivity	0.039 W / m.K

Application:

Specially designed for interiors, Corkon is suitable for a wide variety of areas as a natural and decorative insulation material, with excellent temperature and soundproofing properties. It effectively eliminates thermal bridges, preventing condensation.

Other:

Our product is certified 100% biodegradable and vegan, free of biocides, fungicides, and VOCs.

Ingredients:

Cork, natural fibers, mineral fillers, thickening and binding agents. 94% are of natural origin.
